Parts Identifications

1. GOOSENECK MICROPHONE

This is a detachable condenser mic with illuminated ring with cardioid pick up pattern.

2. TALK SWITCH

The momentary direct talk switch activates the mic without pre-announcement chime

3. CHIME AND TALK SWITCH

A 4 tone chime shall be broadcasted when the switch is pressed once and a downward 4 tone chime follows when the unit is switched off.

4. DRY CONTACT

When mic is active, a dry contact is available and is useful for various applications, such as to trigger emergency ALL CALL.

5. POWER INPUT

The unit operates using 24V DC supply. A power adaptor is provided in the package.

6. AUDIO OUTPUT JACK

Output is balanced with either line or mic level which can be selected from the switch located at the bottom of the unit.

7. CHIME & MIC LEVEL CONTROL

Individual control for chime and mic output level to suit the installation environment.

8. MIC / LINE SWITCH

Output level from the unit can be preselected with either mic (0.775V) or line level (1.2 V).

Application Schematic

ALL CALL connection from PM1000 to Zone Selector is optional.

Select the correct PM1000 output level when connecting it to the Mixer input.

Connecting the Unit
